These are estimated movements for the day, although do note that some changes may occur. These include movements expected per division and the weight range you may be lifting. As trained Cross-Fitters (because we're smart aF) we expect you to understand and know the technique requirements to complete each of the movements. So, fingers crossed you won't need to ask any weird/ unusual/ annoying questions during the briefing. If you are unsure, Google and Youtube are now your best friends.
